Month converter

Your task is to write a short program that takes in input a number (1 to 12) and returns a string with the name of the month related to the number. If the number is wrong, then return ERROR.

Input
The first line contains a number.

Output
The output contains the name of the month or ERROR

Sample input   **Sample output**

Sample input	Sample output
4	APRIL
12	DECEMBER
13	ERROR
